Perennials

Achillea 'Moonshine' (Yarrow) ☀βχ☺☺
 COLOR: Yellow HEIGHT: 1-2'
 BLOOM: Summer SOIL: Tolerant of dry, poor soil. Excellent drainage is a must
 COMMENTS: This unique yarrow has dense, deep lemon yellow flowers and silver foliage.

Agastache 'Blue Fortune' (Hyssop) ☀β✕χ☺
 COLOR: Purple HEIGHT: 2-3'
 BLOOM: July-September SOIL: Average to dry soil
 COMMENTS: Strong stalks shoot upward in spring with fuzzy licorice-scented leaves. In summer, the stems are topped with hundreds of bottlebrush flowers that attract a array of pollinators!

Amsonia tabernaemontana -variety salicifolia (Blue Star) ☀◯β☺
 COLOR: Light Blue HEIGHT: 2-3'
 BLOOM: Late Spring/Early Summer SOIL: Wet
 COMMENTS: Long-lived, clump-forming, herbaceous perennial features 3-4 weeks of light blue, star-shaped flowers in spring. Followed by ornamental seed pods. Easy to grow and no-fuss.

Aquilegia canadensis (Wild Columbine) ☛◯☺✕☺
 COLOR: Red spurs, yellow sepals HEIGHT: 1-3'
 BLOOM: April - June SOIL: Moist, well-drained soil
 COMMENTS: Great and consistent performance.

***Aruncus dioicus (Goat's Beard, or Bride's Feathers)** ☀☛◯⌘β
 COLOR: White HEIGHT: 3-5'
 BLOOM: May, June SOIL: Moist, wet
 COMMENTS: Showy, finger-like flower clusters, which form feathery masses of all male or all female flowers.

Asarum canadense (Wild Ginger) ☛◯☺☺
 COLOR: Maroon-brown (beneath foliage) HEIGHT: 6-12"
 BLOOM: Late Spring/Early Summer SOIL: Well drained, acidic
 COMMENTS: This deciduous perennial groundcover has unique velvety green, heart-shaped leaves and is a great addition to the spring woodland garden. Roots have similar scent to culinary ginger, but not related.

Asclepias incarnata - Rose Swamp Milkweed ☀◯☺β☺
 COLOR: Bright purple HEIGHT: 3-4'
 BLOOM: June - July SOIL: Moist
 COMMENTS: Willow-like leaves. A great insect plant - a butterfly magnet, as with all milkweeds.

* Limited Quantities

Asclepias tuberosa (Butterfly Weed) ☼☺βχ

COLOR: Bright orange HEIGHT: 24"
BLOOD: July – August SOIL: Well-drained sandy or gravelly soil
COMMENTS: Blooms followed in autumn by canoe-shaped seed pods that send forth silky seeds; good for cut flower; pods good for arrangements.

Asclepias syriaca (Common Milkweed) ☼☺βχ

COLOR: Deep pink HEIGHT: 2-5'
BLOOD: June - July SOIL: Well-drained
COMMENTS: Best known as food for monarch caterpillars. Robust and fragrant.

Aster cordifolius (Blue Wood Aster) *○βχ

COLOR: Blue HEIGHT: 2-3'
BLOOD: Early fall SOIL: Average to dry
COMMENTS: Good for planting under trees, at the edge of woods or among Hostas and Astilbes, which look pretty rough by September.

Aster laevis ‘Bluebird’ (Smooth Aster) ☼○⌘☺βχ

COLOR: violet-blue w/yellow centers HEIGHT: 3-4'
BLOOD: September SOIL: moist to average
COMMENTS: Single 1.5" daisy flowers with gold centers

***Aster novi-belgii ‘Marie III’ (New York Aster)** ☼☺βχ

COLOR: Dark Pink HEIGHT: 12-18"
BLOOD: Late Summer—Mid Fall SOIL: average to moist
COMMENTS: This is a compact selection with fluffy double deep-pink blossoms. Dark green disease resistant foliage.

Aster oblongifolius ‘October Skies’ (Aromatic Aster) ☼○βχ

COLOR: Violet HEIGHT: 18"
BLOOD: September - October SOIL: Average to dry
COMMENTS: Has a showy, strikingly beautiful mounded appearance with masses of blue-lavender flowers with yellow centers, daisy-like flowers. This fragrant flower is a preferred nectar source for many butterfly species.

***Aster oblongifolius ‘Raydon’s Favorite’ (Aromatic Aster)** ☼○βχ

COLOR: Medium Blue HEIGHT: 2-3'
BLOOD: September - October SOIL: Average, dry
COMMENTS: Has a showy, strikingly beautiful mounded appearance with masses of violet-blue, daisy-like flowers. This fragrant flower is a preferred nectar source for many butterfly species.

Caltha palustris (Marsh Marigold) ☼○☺χ

COLOR: Yellow HEIGHT: 8-12"
BLOOD: March-May SOIL: Moist to wet
COMMENTS: Shiny green, round foliage, one of the first wildflowers to bloom in early spring.

Carex pensylvanica (Oak Sedge) *○χ⌘☺

COLOR: Green HEIGHT: 8-10"
BLOOD: Semi-evergreen SOIL: Moist, average
COMMENTS: With its tough disposition and spreading habit, this native grass makes an excellent shade groundcover. Fine texture and fountaining habit give this sedge a soft appearance that is lovely as an underplanting. Mixes well with other types of plants.

Chelone glabra (Turtlehead) ☼○☺χ

COLOR: White HEIGHT: 2-4'
BLOOD: August – September SOIL: Slightly acid moist soil
COMMENTS: Native; lustrous, deep green foliage; upright perennial; flowers in small clusters on stems; pinch shoot tips in Spring for bushier growth.

Chelone lyonii ‘Hot Lips’ (Pink Turtlehead) ☼○⌘χ

COLOR: Brilliant rose-pink HEIGHT: 2-4'
BLOOD: August – September SOIL: average to moist
COMMENTS: Interesting bronze-green early season growth. Good cut flower.

Coreopsis auriculata ‘Crème Brulee ‘Red Satin’ & ‘Sienna Sunset’ ☼○βχχ

COLOR: Crème Brulee is Yellow, Red Satin is ruby red, Sienna Sunset is Orange HEIGHT: 15-18"
BLOOD: Spring through Summer SOIL: Average to dry, well drained
COMMENTS: Responds beautifully to cutting back.

Delphinium exaltatum (Tall Larkspur) *○☺

COLOR: lavender to violet HEIGHT: 3-6'
BLOOD: July SOIL: average to rich
COMMENTS: Spikes of spurred flowers in July. Drought tolerant once established.

Echinacea - ‘Cheyenne Spirit’ (Coneflower) ☼○βχχχ

COLOR: Mixed colors (see comments) HEIGHT: 24-30"
BLOOD: July – August SOIL: Average to dry soil
COMMENTS: This plant flowers in a variety of colors from purple, pink, red and orange tones to lighter yellows, creams and whites.

○ Partial Shade	χ Drought Tolerant
χ Deer Resistant	⌘ Attracts Hummingbirds
β Attracts Butterflies	ρ Attracts Pollinators

Key

Echinacea purpurea 'Green Twister' (Cone Flower) ☼○βχϝ

COLOR: Red center with green edges HEIGHT: 2 - 3'
BLOOM: July - August SOIL: Average to dry
COMMENTS: Great for pollinators. New color variety!

Echinacea purpurea - 'Magnus' (Purple coneflower) ☼○⌘βχ

COLOR: Hot pink to purple HEIGHT: 2-3'
BLOOM: July - August SOIL: average to dry soil
COMMENTS: Heat & drought tolerant; long flowering season; full sun/part shade; will self-sow where happy

Eupatorium coelestinum (Wild Ageratum/Mistflower) ⌘○☼

(also synonymous with *Conoclinium coelestinum*)

COLOR: Bright Blue HEIGHT: 2-3'
BLOOM: Late summer SOIL: Average
COMMENTS: Cut back in early summer for denser, more upright growth.

Eupatorium dubium 'Little Joe' (3-nerved Joe Pye Weed) ☼○☼β

COLOR: Pink-lavender HEIGHT: 4-5'
BLOOM: July - September SOIL: Moist, acidic
COMMENTS: Shorter than most other Joe Pye Weeds.

Eupatorium fistulosum (Joe Pye Weed) ☼○☼β

COLOR: pink-lavender HEIGHT: 6 - 10'
BLOOM: July - September SOIL: moist to average
COMMENTS: Huge round flower heads. Butterfly magnet.

Geranium maculatum (Wild Geranium) ☼⌘○☼

COLOR: Violet- rose HEIGHT: 15-24"
BLOOM: May - June SOIL: Average to moist, humus
COMMENTS: Airy clusters of flowers above height foliage; nice slow creeper.

Geum fragarioides (Appalachian Barren Strawberry) ⌘○χϝ

COLOR: Yellow HEIGHT: 3-6"
BLOOM: Late spring/early summer SOIL: Average well drained
COMMENTS: Hardy, semi-evergreen groundcover with strawberry-like dark green foliage and delightful yellow flowers. Fruit is small and inedible.

Heliopsis helianthoides, variety scabra 'Burning Hearts' (False Sunflower) ☼○βχ

COLOR: Red, yellow HEIGHT: 3 - 4'
BLOOM: Late summer SOIL: Moist or dry
COMMENTS: "Burning Hearts" is a show-stopping color that is also attractive to bees and butterflies

Iris versicolor (Blue Flag) ☼○☼

COLOR: Blue HEIGHT: 3'
BLOOM: May & June SOIL: Moist.
COMMENTS: Native wetland plant. Moist location essential.

Lobelia cardinalis (Cardinal Flower) ⌘○☼⌘

COLOR: Scarlet red HEIGHT: 32"
BLOOM: July - September SOIL: Very moist
COMMENTS: A spike of flowers; vigorous; will self-seed. This plant is pollinated exclusively by hummingbirds.

Lobelia siphilitica (Great Blue Lobelia) ☼○☼β⌘

COLOR: Blue HEIGHT: 30"
BLOOM: July - September SOIL: Moist
COMMENTS: Vigorous; will self-seed.

***Meehania cordata (Meehan's Mint, or Creeping Mint)** ⌘○ϝ⌘☼

COLOR: Blue Violet HEIGHT: 12"
BLOOM: Late Spring-Early Summer SOIL: Moist to average
COMMENTS: Long, trailing stems run across the ground and root along the way. In late spring the green carpet gives way to hundreds of blue flowers opening to reveal spotted throats.

Monarda didyma - 'Jacob Cline' (Bee Balm) ☼○☼β⌘ϝ

COLOR: Rich red HEIGHT: 30"
BLOOM: June - July SOIL: Moist, rich soil
COMMENTS: Fragrant aromatic foliage; numerous tubular flowers extend out of a ball-shaped whorl; vigorous growth habits; much more mildew resistant and larger flowered; good cut flower.

Monarda fistulosa 'Clair Grace' (Wild Bergamont) ☼○☼β⌘ϝ

COLOR: Pale lavender HEIGHT: 2-4'
BLOOM: June - July SOIL: average
COMMENTS: Aromatic leaves are used in Earl Grey tea.

Monarda punctata (Spotted Beebalm/Horsemint) ☼○βχ⌘❖☼

COLOR: Pink HEIGHT: 24-30"
BLOOM: Late Summer/Fall SOIL: Well Drained
COMMENTS: This aromatic plant is valuable ecological species, *Monarda punctata* is the equivalent of a juice bar at the gym for nectar loving/needling insects!

Oenothera fruticosa 'Fireworks' (Sundrops/Narrowleaf Evening Primrose) ☀️🐇☺️

COLOR: Yellow HEIGHT: 15-18"
BLOOM: Late spring-early summer SOIL: Well drained
COMMENTS: Day-flowering member of the evening primrose family and produces terminal clusters of bright yellow four-petal flowers.

Packera aurea, formerly Senecio aureus (Golden Ragwort) 🌑☀️☺️🐇

COLOR: Bright golden HEIGHT: 12"
BLOOM: May SOIL: Average to moist
COMMENTS: Prefers partial shade. A strong ground cover where happy.

Phlox divaricata - 'Blue Moon' (Wild Blue Phlox) 🌑☺️🐇

COLOR: Pale blue HEIGHT: 8-10"
BLOOM: April - May SOIL: Rich
COMMENTS: Perfect for shady gardens, wooded areas.

Phlox paniculata - 'Peacock Cherry Red' (Summer Phlox) ☀️☺️🐇⌘

COLOR: Cherry-rose HEIGHT: 18-24"
BLOOM: Early to Late Summer SOIL: Moist to average
COMMENTS: Rich, fragrant blossoms bred for compact size, disease resistance and heat tolerance.

***Podophyllum peltatum (May Apple)** 🌑☺️

COLOR: White HEIGHT: 12-18"
BLOOM: March-May SOIL: Moist, well-drained
COMMENTS: Nice addition to a shade or woodland garden.

***Polygonatum falcatum (Variegated Solomon's Seal)** 🌑☺️

COLOR: White HEIGHT: 2-3'
BLOOM: April-May SOIL: Moist, Well-drained
COMMENTS: Woodland Garden plant with dark green leaves edged in white. White bell-shaped flowers emerge from beneath the stem.

Physostegia virginiana 'Miss Manners' (Obedience Plant) ☀️☺️⌘

COLOR: Orchid pink or white HEIGHT: 18-24"
BLOOM: June to October SOIL: Average
COMMENTS: Snapdragon-like spikes. Good cut flower.

Pycnanthemum flexuosum (Appalachian Mountain Mint) ☀️☺️🐇⌘

COLOR: White HEIGHT: 20-30"
BLOOM: Late Summer SOIL: Well-drained
COMMENTS: An aromatic, blooming over a long period. A good soil stabilizer. Foliage develops an attractive red tinge in autumn. Incorporate along the perennial border, rain garden, or near the vegetable garden to entice pollinators.

Pycnanthemum tenuifolium (Slender Mountain Mint) ☀️☺️🐇⌘

COLOR: White HEIGHT: 2-3'
BLOOM: Late Summer SOIL: Moist, to average
COMMENTS: Blooms are small, white clusters and while attractive, what really is noticeable is how much this plant attracts animals of all kinds! A favorite for native bee species, it is swarming with insects as it blooms.

Rudbeckia fulgida 'Goldstrum' (Black-eyed Susan 'Goldstrum') ☀️☺️🐇⌘

COLOR: Bright gold HEIGHT: 24-30"
BLOOM: July-Oct. SOIL: Average to dry
COMMENTS: Long flowering period.

Rudbeckia subtomentosa 'Henry Eilers' (Sweet Black-eyed Susan) ☀️☺️⌘

COLOR: Yellow HEIGHT: 4-5'
BLOOM: Late Summer SOIL: Average, moist
COMMENTS: 'Henry Eilers' has finely quilled flowers of true yellow, not gold, and is stunning in a mass planting.

Ruellia humilis (Fringed-leaf Petunia) ☀️🌑⌘⌘

COLOR: Pink to purple HEIGHT: 2-3'
BLOOM: All summer SOIL: Dry, basic.
COMMENTS: Long flowering period. Drought tolerant.

***Sanguinaria canadensis (Bloodroot)** 🌑☺️

COLOR: White HEIGHT: 6-10"
BLOOM: March-April S SOIL: Moist, well drained.
COMMENTS: Each flower stalk has one solitary flower. The sap of the plant is red, thus the name.

Scabiosa columbaria 'Butterfly Blue' (Pincushion Flower) ☀️🐇⌘

COLOR: Sky blue or pink HEIGHT: 12-15"
BLOOM: May - frost SOIL: Rich, well-drained
COMMENTS: Excellent border plant. Butterfly magnet.

Sedum telphium - 'Autumn Joy' (Stonecrop) ☀️🐇⌘

COLOR: Rosy Pink HEIGHT: 2-3'
BLOOM: Late Summer SOIL: Average to dry, well-drained
COMMENTS: Sedums love hot, dry conditions. Excellent as a perennial border, in rock gardens & as ground cover.

Key

Silene caroliniana 'Short & Sweet' (Wild Pink) ☼○●β☺

COLOR: Deep Pink HEIGHT: 6-8"
BLOOM: Late spring /early summer SOIL: Average to rich, moist to dry
COMMENTS: Delightful, compact and easy to grow, it is an excellent choice for bright shade or full sun. It is covered in deep pink flowers in late spring.

Solidago odora (Anise Scented Goldenrod/Sweet Goldenrod) ☼○βχ☺☼

COLOR: Yellow HEIGHT: 2-4'
BLOOM: Late summer/fall SOIL: Well drained, moist to dry
COMMENTS: Wonderfully fragrant leaves give off an anise scent when crushed, reminiscent of licorice candy. Attracts butterflies, bees, ladybugs, lacewings and other beneficial insects.

***Stylophorum diphylllum (Celandine Poppy/Wood Poppy)** ●☺

COLOR: Golden yellow HEIGHT: 12-24"
BLOOM: Spring SOIL: Moist to moderately damp
COMMENTS: Easy to grow native that will self-sow and form a ground cover.

***Tiarella cordifolia (Foamflower)** ●○☺

COLOR: White HEIGHT: 5" (Spring stalks 8-12")
BLOOM: Early Spring SOIL: Moist, rich soil.
COMMENTS: Excellent ground cover or shady edge. Spreads quickly.

Tradescantia 'Sweet Kate' (Spiderwort) ☼○☺

COLOR: Lavender HEIGHT: 2-3'
BLOOM: June - September SOIL: Moist to dry
COMMENTS: Easy to grow. Tolerates a wide range of conditions. Blooms primarily in the morning. Each flower blooms only once and then 'melts'.

Vernonia lettermanii 'Iron Butterfly' (Ironweed) ☼β

COLOR: Purple HEIGHT: 30-36"
BLOOM: Late summer SOIL: Moist to average
COMMENTS: Attractive to butterflies. Though native of moist meadows, it is plenty tolerant of hot dry summers.

Vernonia noveboracensis (New York Ironweed) ☼☺β

COLOR: Bright purple HEIGHT: 4-7'
BLOOM: August - September SOIL: Average to moist
COMMENTS: Lovely native that adapts well to any moist location.

Veronicastrum virginicum (Lavender Towers) ☼○βχ☼

COLOR: Violet HEIGHT: 4-5'
BLOOM: Late summer Soil: Well-drained
COMMENTS: Attractive to pollinators. Drought tolerant, good for meadows or backdrop of naturalized gardens.

10 * Limited Quantities

Ferns

Matteuccia struthiopteris (Ostrich Fern) ●○☺☼☺

HEIGHT: 3-5' SOIL: Well-drained, moist- neutral to acid
COMMENTS: Tolerates some sunshine. Large, plume-like, medium green fern. Grows in graceful vase-like clumps from a stout rootstock.. Very hardy. Spreads Quickly.

***Onoclea sensibilis (Sensitive Fern)** ☼○☺☼☺

Height: 3-4' Soil: Medium to wet
COMMENTS: Tolerates full sun. Excellent ground cover.

Vines

***Gelsemium sempervirens 'Margarita' (Carolina Jessamine)** ☼○×β☼

COLOR: Yellow HEIGHT: Vine 8-12'
BLOOM: early summer SOIL: Average
COMMENTS: Mostly evergreen leaves. Profusion of yellow trumpet flowers in early summer.

***Lonicera sempervirens (Trumpet Honeysuckle)** ☼○☺×☼☺

COLOR: Red HEIGHT: 3-6'
BLOOM: May - frost SOIL: Average
COMMENTS: A vine that is perfect for arbors and trellises. Hummingbird magnet.

☼ Full Sun	☼ Native to Eastern US
● Full Shade	☺ Native to Eastern PA
○ Partial Shade	χ Drought Tolerant
